

I am AGAINST any relaxation of rules banning cell phone use in planes and request that the present rules remain in effect. I believe cell phone usage will greatly increase the risk of tension among passengers or between passengers and crew, and will greatly increase the incidence of air rage. If, in spite of public opinion to the contrary, the rules are relaxed, then I would greatly urge that the time of cell phone usage be restricted to 10 minutes at the beginning or end of the flight. I would also urge that cell phone usage only be permitted in a designated area of the craft - e.g., the back of the plane - like smoking many years ago.
